Capacity Solutions has one goal:  
**Your Satisfaction.**

Capacity Solutions offers comprehensive freight management services and true 3PL solutions geared to the needs of our customers using a non-asset based solution in conjunction with an asset-based platform. We invest in both leading-edge technology and top-notch, experienced, logistics professionals, giving us the ability to enhance your supply chain. Capacity Solutions will design and operate the solution that addresses your complex needs while utilizing the appropriate mode selection, schedule and partners.

Whether it is simple transactional freight, on-site management or a complete outsourcing of your supply chain, Capacity Solutions has the expertise to handle it all.

## Why choose Capacity Solutions?

- Access to over 3,000 tractors and 5,000 trailers through our sister companies Van Expedited, Malone and Dedicated Services
- We enter every relationship with a complete understanding of our customer's needs
- Around the clock access to our customer service and operations team
- You benefit from our expertise

## Truckload:

Capacity Solutions has the truckload knowledge and relationships needed to match the needs of our carriers with the demands of our customers. Whether your need is Dry Van, Refrigerated, Flatbed, Stepdeck, Dropdeck or RGN, we have you covered.

- Over 13,000 carriers under contract
- Overweight and over-dimensional project cargo
- U.S., Canada and Mexico freight movement

## Less-Than-Truckload-LTL:

We will find the best solution for your LTL shipments whether it is via common or contract carriers. Regardless of dimension, freight class or weight, we have the solution to move your freight economically and safely.

- LTL consolidation
- Coverage area throughout the U.S., Canada and Mexico
- Expedited, Time-Definite and Guaranteed LTL service available

## Intermodal:

Utilizing our professional knowledge, loyal relationships with the Class I railroads and partnering with top drayage providers, Capacity Solutions provides a streamlined rail management program for our customers.

- Door-to-door freight management
- 20' to 53' containers/vans
- Service throughout the U.S., Canada and Mexico
- Recognizable cost savings

## Airfreight:

Our experienced staff will manage the entire process from door-to-door. Our contracts with our air carrier and drayage partners ensure a seamless transition so that your shipment arrives on-time.

- International and domestic air freight services offered
- Same day service in some cases
- Guaranteed delivery within 24 hours to the 48 contiguous states
- Charter air services as needed

**Expedited-Team Service:**

Capacity Solutions offers the most advanced team-expedited service in the country. In addition to our sister company, Van Expedited, we also have numerous carrier partners that specialize in expedited team service.

- Coast-to-coast transit including Canada and Mexico
- Satellite communications capability on every truck
- 24/7 availability

**Dedicated Service:**

Partnering with our sister company allows you the advantage of having a private fleet while leaving the transportation to us. Tractors, drivers, transportation management and back-office support customized for each customer allows you to focus on your core competency.

- Revenue gain-sharing on backhaul opportunities
- Satellite tracking and on-board communications
- KPIs established and reported weekly and monthly

**International:**

In today's global environment, reliable and cost-effective trans-continental shipping is a must. Trust Capacity Solutions to deftly manage all of your international ocean shipments through one of our contracted ocean carriers.

- 20', 40' and 45' equipment options available
- Dry and refrigerated freight options
- Door-to-door management of your shipping needs

**Specialized:**

Acting as an extension to our customer's transportation management program, we design the solution that streamlines your needs while significantly improving ROI.

We have the experience needed to transport plant machinery and manufactured products including generators, turbines, locomotive engines, and construction equipment.

- Drop decks
- Low boys
- Double drop stretch trailers
- RGNs and more

**Warehousing:**

Capacity Solutions uses state-of-the-art warehouse management systems and skilled teams to offer the highest quality service for all of your warehouse needs.

- Storage & Distribution
- Pick and Pack
- Packaging/Labeling
- Freight Consolidation
- Kitting

**Supply Chain Management:**

The most effective Supply Chain Management system is the one that you don't see. Capacity Solutions can evaluate and redesign your current system beginning with raw goods sourcing all the way to final product delivery.

- Inventory Management
- Complete integration of the entire supply chain
- Focus on order fulfillment
